Brands you can trust | Equipment that delivers

GlenDimplex
PROFESSIONAL APPLIANCES

A name you can trust

Glen Dimplex Professional Appliances (GDPA) is one of the leading manufacturers in the UK for commercial catering equipment. Established in 2007 as part of the global Glen Dimplex Group, GDPA is home to two of the most recognisable names in catering equipment and refrigeration, Burco and Lec. We are proud to be one of the few manufacturers still building many of our products in the UK, at our factory in Prescot, Merseyside, and our National Distribution Centre in Stoke-on-Trent boasts 500,000 sq ft of warehouse space to enable us to serve our customers throughout the UK, and all over the world.

Our promise to you

We believe in the quality of our products, that's why we give all our products up to a 3 years warranty offering complete satisfaction of the durability of our products. This is teamed with our award-winning customer care service and the support of a specialised team of nationwide service engineers, so that in the unlikely event of a problem, you are assured of a swift and knowledgeable response from our after-sales team.

We strive to be as environmentally friendly as possible and our manufacturing site meets ISO14001 standards.

BURCO
COMMERCIAL

Our Burco catering equipment range continues to go from strength to strength and we have added new products for 2012. Whether you are looking for our trademark water boilers, 6 burner range cookers, or heavy duty toasters for front of house, Burco's equipment is robust, durable and designed to meet your needs.

Lec
COMMERCIAL

New for 2012, we have launched our Platinum commercial refrigeration range, a fantastic new line up of catering fridges and freezers. We also have an extensive range of stylish bottle coolers, display refrigeration and wine coolers to suit the needs of most commercial outlets.

Extend your warranty for added peace of mind*

Glen Dimplex Professional Appliances has now launched a comprehensive extended warranty package enabling you to protect your product beyond our free of charge parts and labour warranty.

Call us today to find out more!

0844 815 3742

This package includes new for old replacement and offers reassurance in the current uncertain economic climate.

Cooking

EQUIPMENT

Functionality and reliability are key when considering cooking equipment – essential for food output in a busy kitchen. Burco has designed and developed a range, much of it manufactured in the UK, to meet the needs of busy catering kitchens, including ranges with gas hobs and a choice of gas or fanned electric ovens, in 4 and 6 burner options, as well as a Salamander grill and accessories suitable for use with these appliances.

Designed to be simple to use and robust, providing excellent cooking, using as little energy as possible, they're ideal for restaurants, hotels, schools and pubs.

Range Cooking

Titan is rapidly becoming one of the leading names in catering equipment, the range provides the ultimate in cooking power and energy efficiency.

Available in 4 burner, 6 burner and dual fuel options, Burco Titan ranges offer powerful 6.1kW hob burners to ensure fast cooking for any busy kitchen. So powerful it will bring a 20 litre stock pot to boil over a minute faster than the closest leading competitor.

Key features

- 9.0kW oven power in the 6 burner range gives rapid heat up times and after 10 hours continuous use has been shown to use **15% less gas** than its closest competitor, saving you both time and money
- Titan 6 burner range and dual fuel offers 2/1 Gastronorm compatibility and the Titan 4 burner can fit 1/1 Gastronorm trays and pans
- Gas models have a flame failure device for extra safety

MADE IN UK

Removable hob for easy cleaning

Ideal for:

- ✓ Outside Caterers
- ✓ Schools
- ✓ Restaurants
- ✓ Cafés
- ✓ Pubs

One-piece pressed hob collects most spillages

The entire **hob top** can be removed in a matter of seconds for cleaning

Heavy duty, cast-iron pan supports sit on locating pins on the hob ensuring there's no danger of the supports moving on the hot cooking surface

Oven shelves are designed with **safety-stop** to prevent the full shelf being pulled out accidentally

Enamelled oven for easy cleaning

All oven ranges come with **heavy duty castors** as standard for manoeuvrability and easy cleaning

Save time cleaning with Titan

Titan range cookers not only save you time with their powerful cooking performance, but they are also simple to maintain and clean and can be stripped down easily.

The hob is easy to remove for cleaning elements quickly.

Titan Dual Fuel 6 Burner

Offering better cooking results together with faster cooking times. You can simply switch between gas and electric at the turn of a dial

- Powerful hob, 6x 6.1kW burners offer great cooking performance
- Switch between 9kW gas or 5kW electric oven with the simple twist of a dial
- Heavy duty lockable castors fitted as standard on all Titan ranges

NEW COOKCENTRE

Cookcentre

Introducing our latest cooking innovation. We have developed our domestic Belling platform into our new Cookcentre as the ideal cooking suite for those needing to serve up large breakfasts!

The Burco Cookcentre offers the visual appearance and format of a domestic unit, but in an easy-to-clean stainless steel finish complete with our standard Burco warranty.

Imagine the time you could save cooking the great British breakfast by frying eggs and mushrooms and heating tomatoes on the high-powered hob, grilling sausages and bacon on the eye level grill, and cooking hash browns in the oven while the serving plates are warming in a separate compartment.

The Burco Cookcentre is available as an all-electric unit or a gas hob (dual fuel option).

For more information about our cooking range:
please call 0844 815 3742
or visit www.burco.co.uk

Ideal for serving up large breakfasts, lunches and dinners

Electric Hob

Our all-electric version is ideal for establishments where a gas supply might not be available and offers a solid, easy clean single piece ceramic hob top.

Two independent variable heat, eye level double electric grills

Fully integrated splashback for easy cleaning

5 ceramic hot plates

Plate warming cavity

Large fan oven, 2.0kW, 2 shelves, internal light

Tall fan oven, 2.5kW, 3 shelves, internal light

GRILLING

Synergy Grill

The Burco Synergy grill is the world's first atomising char-grill, offering improved quality food, higher efficiency and enhanced safety.

How it works:

- No fat tray means a reduced risk of fire as no combustible hot grease or oil sits in the unit
- The high temperature generated from the gas burner heats the ceramics, focuses heat towards the grill and vaporises fat into a fine mist, which is blasted back to the underside of the food, keeping it moist and flavoursome
- Because no combustible fat reaches the grill base, flames are almost eliminated, removing that charcoal taste and reducing the risk of a fat fire to almost zero

Check out our demo video at www.burco.co.uk/synergyvideo

For more information about our cooking range:
please call 0844 815 3742
or visit www.burco.co.uk

The World's First Atomising Char-grill

- ✓ Cooks food faster
- ✓ Switch off between use – re-heats rapidly
- ✓ No fat tray to empty, safer and less waste

Flexible grilling area atomising technology ensures no cross-flavouring contamination, so you can cook different meats, fish and chicken simultaneously

Easy tilt rack enables food to be cooked at different temperatures

Safety cut-off for the gas to the burner in the event of supply failure

Internal ceramic plate retains heat for up to an hour meaning you can switch off between uses as it takes little time to get back to temperature, saving valuable energy

Stainless steel sides remain cool to touch due to the grill's air flow system for added safety in a busy commercial kitchen

Synergy Grill

Model	SKU Code	Dimensions h x w x d (mm)	Weight (kg)	Colour
SYNG01	444449877	360x450x600	43	SS

One touch operation – the unit starts heating up at the flick of a switch

We also offer a range of gas and electric grill units suitable for the busiest catering kitchens through to smaller cafés and pubs.

Titan Gas Salamander Grill

- 5.4kW of grilling power and the large cavity is 1/1 Gastronorm compatible – perfect for melting, grilling and toasting
- Complete with an aluminum branding plate as standard and a removable fat tray to make cleaning easy

We also offer a wall bracket for use with the Salamander Grill

Countertop Induction Hob

Model	SKU Code	Dimensions hwxwd (mm)	Weight (kg)	Colour
CTIN01	444440541	275x400x600	12	SS

Save Money with Induction Technology

When it comes to running a commercial kitchen, keeping costs low and efficiency high is key. That's where the Burco Induction Hob really comes into its own. Offering not only instant heat for faster cooking times, its low energy consumption also means you can save money on your bills and there's even a built-in timer for convenience. Ideal for boiling, melting and simmering, the Burco induction hob can make a real difference in your kitchen.

How does it save you money?

Induction cooking offers 90% energy efficiency compared to 50% on gas hob rings and 55% for electric, as very little energy is wasted into the surrounding air. This not only reduces cooking times but also means the air in the kitchen is kept much cooler, so you won't need your air conditioning as much either.

Induction Technology

- Generates heat through electromagnetic technology
- Heats the pan, not the hob
- No heat wasted, unlike gas and electric hobs
- Quicker, more efficient cooking
- Works with flat based induction pans

Induction - only heats the pan, not the ice cube

Induction

COUNTERTOP

Plug and go range

All the main component pieces have a standard modular 600mm depth so you can fit the exact range and mix to suits your needs. Suiteing together seamlessly, all work off a fitted UK 3-pin plug.

Stainless steel construction makes them easy to clean, helping to maintain high standards of hygiene. Designed with safety in mind, all units have non-slip feet and, where applicable, strong handles and robust doors, built to withstand the busiest catering environment.

PC20	4444441030	420x405x410	16.2	SS

Our Pie Cabinets can be personalised with your own brands. Please contact us for details.

Water reservoir – keep filled to minimise the possibility of the pastry inside becoming too dry, also easy to remove and clean

Strong stainless steel construction, sturdy, hygienic and easy to clean

Sliding, easy-clean doors with large stay-cool knob, simply plug into the mains and you're ready to go

Removable element cover allows you to take out and clean quickly and easily when the unit has cooled

Large capacity interior – we guarantee this unit will hold 60 standard pies (based on pies 108mm diameter)

60 Capacity Pie Cabinet

Model	SKU Code	Dimensions hxxwxd (mm)	Weight (kg)	Colour
PC60	444441031	420x740x410	24.6	SS

Both sizes come complete with a fitted plug, so you simply have to plug in and select the temperature you require, the units heat up quickly and are then ready to use. Our Burco cabinets are equipped with a number of user-friendly features meaning you save time on cleaning and upkeep and more time serving your customers.

Features include:

- **Variable temperature setting** – adjust the dial to your required internal temperature (30°C to 85°C range)
- **Internal light** – illuminated interior allows good visibility without needing to open doors
- **Removable crumb trays** specially designed to catch any crumbs or debris falling through the base to prevent them falling on the element. Simply pull out, wipe clean then slide back in
- **Indicator lights** – two neon lights indicate when the unit is switched on and heating up
- **Easy to remove toughened safety glass** maintains heat in the cabinet but is strong enough to be removed regularly for cleaning
- **Non-slip feet** – safety feature to ensure the unit doesn't move easily when sited on a counter

Removable crumb tray – easy to empty and clean

Variable temperature setting – for maximum flexibility

Beverages

RANGE

From our trusty manual fill water boiler to our sophisticated Bean to Cup coffee maker, Burco knows what it takes to make hot drinks.

Whatever your requirements, we have a product to suit your needs offering all the features and performance you would only expect from the leading water boiler brand.

Manual Fill Water Boilers

Ideal for clubs, community and leisure centres, small offices, construction sites, outside caterers and small cafés, Burco's manual fill boilers allow you to offer your customers piping hot beverages with the convenience of manoeuvrability, offering either a continuous flow during busy periods or occasional use at quieter times, thanks to the dual function safety tap. It requires just a 13amp connection.

We also have a range of gas boilers to suit the needs of outdoor caterers – a familiar sight at fetes and festivals across the UK.

Our Manual Fill boiler range is all manufactured in the UK

or visit www.burco.co.uk

Safety twist lock lid with integral handles protects customers and caterers from escaping steam

Ideal for front of house use

– double skinned for insulation, the sides don't overheat, meaning no accidental burns

Fully EMC tested and CE marked

Dual function, non-drip tap means you can choose from either continuous flow without holding the tap or a controlled flow where the water stops as soon as your hand is released from the tap. To change the tap position you simply turn it 180°

Neon indicator lights show when the element is on and when the unit is up to temperature

Boil-dry safety cut-out with manual re-set to protect the unit from damage if accidentally operated when empty

BEVERAGES

Autofill Water Boilers

Burco autofill boilers are ideal for catering establishments requiring a constant large volume of hot water where it's possible to connect to a water supply. Available in 10L and 20L models, these countertop boilers are perfect for hotels, restaurants, kitchens, coffee shops, canteens and busy offices.

The stylish two-tone stainless steel design not only looks good front of house but is also built to withstand a busy catering environment and is easy to install, wipe clean and maintain.

All our boilers have a safety cut-out to prevent overboil, ensuring safety at all times. Our units are also fully EMC tested and CE marked for added reassurance and peace of mind.

BURCO

Bean to Cup

If you operate a busy office, restaurant, café, pub, service station or hotel and want the perfect cup of coffee at the touch of a button then the Burco Bean to Cup is the product for you.

- **Two bean hoppers** – easy to remove and refill, offering the user the option to blend two different bean types
- **Additional de-cafeinated chute** for de-caf preparation
- **Burco Bean to Cup boasts 18 settings** so you can enjoy international specialities such as espresso, cappuccino, latte, macchiato and ristretto
- **The precision grinder** guarantees consistently fine and therefore rich, aromatic ground coffee and ideally suited micro-fine sieve
- **Automatic cleaning system** is HACCP-certified for high hygiene standards. No need for daily manual cleaning of individual components

Milk Coolers

The Burco Bean to Cup also offers the option of an integrated milk cooler that fits under the machine, or a combined milk cooler/cup warmer module which sits alongside.

EfficienC Range Explained

The UK Government funded ECA scheme enables UK businesses to claim 100% first year capital allowances on investments in energy saving technology and products.

Whilst usage varies from premises to premises you could save £50 in running costs for each ECA double door bottle cooler you run, compared with a standard non-ECA version.

Key features:

- Ultra efficient low energy consumption saves you money through reduced energy usage
- Over **35% more energy efficient** than standard coolers of a similar size
- ECA approved – claim 100% first year capital allowances to improve cash flow
- Available in black or brushed stainless steel finish

Example	Lec EfficienC	Standard Bottle Cooler
To purchase 3x double door bottle coolers	Initial cost £1,950	Initial cost £1,500
ECA tax savings in year 1	Pay £546 less tax	Pay £84 less tax
Running costs per cooler	£73.36 per year	£123.46 per year
Total running cost	£220.08	£370.38
Actual cash flow year 1	£1,950 outlay	£1,500 outlay
Less tax saving	£546	£84
Plus running cost (3 coolers)	£220.08	£370.38
Total outlay year 1	£1,624.08	£1,768.38

Save money in YEAR 1 with EfficienC bottle coolers

DISPLAY REFRIGERATION

**OUR DOUBLE
DOOR COOLERS
STORE 24
MORE BOTTLES
THAN LEADING
COMPETITORS**

Hinged & Sliding Door Bottle Coolers

Whilst we believe our EfficienC range offers the best value for money, the range of expert bottle coolers from Lec Commercial also offers excellent value for money and great storage capacity.

Our bottle coolers are also highly energy efficient and can use up to 40% LESS energy than comparable competitor models. That could be **as much as £26 per year for each single door bottle cooler you run.**

Forced air cooling
pulls temperature
down quickly after
door opening

Automatic defrost so you
don't have to waste valuable
time emptying and
defrosting your bottle cooler

Lockable to protect your
stock after hours

Internal illumination so
contents are always visible

Removable door seal
for easy cleaning and is
easily replaced

Self-closing doors mean you
won't leave the doors open,
wasting energy

**Easy to adjust chrome
shelving** for added
flexibility so you can
display different sized
bottles and cans

Double glazed safety glass
doors to withstand the
demands of a busy back bar

**Electronic controls which
are simple to use** and
allow you to set your own
desired temperature

Clear plastic cover over
the external temperature
display and internal
on/off light switch
protects against knocks
and scrapes

**External temperature
display** means there's no
need to keep opening the
door to check the temperature
— factory preset so no
set-up required

Our products are designed for use in bars, clubs, restaurants or anywhere that requires maximum display. Easy to match with your current décor, our stylish single and double door coolers are available in a choice of silver or black finishes. We also offer a black three door option for maximum storage. We use energy efficient and environmentally friendly R600a refrigerant which uses 45% less energy than a system using R134a to obtain the same cooling capacity.

DISPLAY REFRIGERATION

Under-counter Wine Coolers

Wine coolers serving wine at the ideal temperature are essential in any quality bar or restaurant and Lec Commercial wine coolers offer the perfect wine storage solution.

Wine connoisseurs believe the perfect temperature for serving white wine is around 10°C and between 15°C and 18°C for red, and Lec Commercial wine coolers have an easy to control internal temperature range of 5-18°C for controlled storage and flexibility for all wine types.

Our 600mm wine cooler offers a dual zone temperature option for red and white wine storage. The dual zones work by each having a control so you can set the top to a different temperature to the bottom.

For more information about our display refrigeration range: please call 0844 815 3742 or visit www.lec-commercial.co.uk

600mm WINE COOLER 600SS

Catering Refrigeration

RANGE

Lec Commercial is one of the UK's leading suppliers of quality refrigeration and freezing solutions for busy caterers. Providing the best possible storage environment for your food is vital and we work closely with catering professionals to ensure our products meet their needs.

Lec Commercial catering products are robust, hygienic, easy to clean and energy efficient, all at an affordable price. We also have a range of large capacity chest freezers, perfect for bulk frozen storage.

WARRANTY
2 Years Parts **2 Years** Labour

new

PLATINUM RANGE

Our new Platinum catering range was launched to celebrate 70 years of Lec refrigeration products and is ideal for any kitchen or space requiring temperature controlled food storage.

The range at a glance:

- **Works in the warmest of kitchens** – up to 38°C
- **Locks fitted** as standard to ensure only authorised personnel can gain access to the unit's contents
- **Large internal capacity** across the whole range makes the units suitable for establishments requiring a large volume of storage as well as compact or under-counter alternatives
- **Great storage flexibility** across the range and shelf heights can be changed easily
- **Energy efficient R600a refrigerant** used across most models offers reduced running costs compared to other competitor models using different refrigerant types
- **Door open alarms to alert user** if the door has been left open accidentally, minimising unnecessary energy consumption
- 600L range is 2/1 Gastronorm compatible
- **Auto defrost function** on all fridges make the units easy to maintain
- Available in white or stylish stainless steel finish

Glass door option makes the Lec Platinum range ideal for front of house, or behind a bar for wine, bottle or food storage, or where the fridge's contents need to be visible

OPERATES IN KITCHENS UP TO 38°C

The easy-to-use **electronic controller** allows the user to set the internal temperature required as well as displaying it, so there's no need to open the door to check

Internal LED light on all fridges automatically comes on when door is opened for illumination inside the unit

Temperature alarm will alert user if the internal temperature deviates from set parameters

Self-closing door helps maintain optimum internal temperature, is energy efficient and convenient for when your hands are full

Fan assisted cooling for rapid recovery after door opens and even chilled air distributor

Storage flexibility – shelves can be moved and re-arranged to maximise storage capacity

Reversible doors are easily switched from left to right hand opening

Fitted castors come as standard*, ideal for manoeuvrability when required for cleaning, the front castors lock when the unit is in position

*on 400/600L range

Chest Freezers

Lec chest freezers come complete with a stainless steel lid as standard, which can provide a much needed additional preparation surface where space is at a premium.

Our chest freezers are ideal for positioning in storage areas and offer extra frozen storage capacity.

Key Features

- ✓ Temperature range -18°C to -34°C
- ✓ Temperature warning light
- ✓ Fitted lock
- ✓ Fast freeze option
- ✓ Fitted castors
- ✓ Baskets included
- ✓ Internal light
